CARTER'S WHIZ KIDS TO BLAME FOR PROBLEMS.

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for following week.

Back in the Kennedy-Johnson Era McNamara's Whiz Kids at the Pentagon created considerable havoc & criticism for them, but that wasn't anything compared to the troubles President Jimmy Carter is encountering with his Bureau of Whiz Kids who were appointed to high government posts as a payoff for support he put in his race to the White House. By leading the Government departments with Economic Disasters from Consumer, Ecological, Environmental, Big Labor & other Pressure Groups who seek to rebuild America according to their own warped ideas as to what things ought to be like — none of Jimmy has a large & growing can of worms on his hands.

Andrew Young this week again ran afoul of Carter's and the State Department's policies. At the time Carter and Secy. Vance were giving the Soviets Hall Columbia over their handling of rebels to

### Slaughter Cow Price Sag Hits Hard At Critical Period

The recent sharp decline in slaughter cow prices once again emphasizes the critical nature of President Carter's decision to open the United States to increased imports of beef, principally manufacturing beef of the type produced from slaughter cows. As can be seen in the pages of this week's Weekly Livestock Reporter the slaughter cow prices have been dropped by the dollars at the time when cowmen are in the process of culling herds due to various reasons such as age and nonproductivity, and this normal process is aggravated by drought conditions in much of the cow country as water and grass is critically short.

The heavy movement of cows to market is further accentuated by the fact that cows are stacking up in the hands of packers. Many slaughterers in Texas and the Southwest report they have on hand more cows than they can slaughter and process for from seven to ten days in the future. Many cowmen who had started rebuilding their herds and who had bought some cows are faced with water and pasture shortages and having second thoughts, and some of those who have not yet made the move have put plans for expanding their herds on the back burner.

## Poage Appoints Committee to Investigate Angelotti Tour with Consultant, Agri-gate To Follow Watergate, Koreagate in News?

The House Agriculture Subcommittee on Livestock and Grains last week looked into the performance of USDA's Food Safety and Quality Service and the 2 1/2-hour session attracted a standing U. N. Ambassador Andrew Young. Answering the Subcommittee's questions were Assistant Secretary Carol Tucker Foreman and her head of FSQS Dr. Robert Angelotti. Results of the session clearly indicated that industry criticism of the high-handed manner in which Foreman and Angelotti have attempted to run the livestock and meat industries had reached the ears on Congressmen.

There have been some strong appeals from industry to get President Carter or Secy. of Agriculture Bob Bergland to fire Foreman and Angelotti, or at least rein them in. However, Bergland's strongly endorsed their work and it seems unlikely that Carter will take action in view of his demonstrated reluctance to fire any of his appointees, regardless of course (as was demonstrated this past week in the firing of U. N. Ambassador Andrew Young's frequent built-ins in foreign policy positions and friendly foreign nations) the general feeling being that the President is disinclined to admit mistakes.

Calves really go for that Evergreen flavor! They take right to it and take off in a hurry!

And it costs a lot less than having another cow!

You can also save losing 40-60 pounds on each mother cow because calves don't pull 'em down; mothers recover faster to start on that next calf! Calves don't scour; and if you market, Evergreen-creeped calves usually grade higher, both for individual quality and for batch uniformity.

## STORY CONT. FROM PAGE 1

in Communist Cause, here comes Young with the statement that U.S. jails are housing hundreds, maybe thousands of Political Prisoners. This is the second time Young has crossed Carter's position, since a while back when Carter & Vance were belaboring the Soviets in general and Cuba in particular for getting involved in Africa's wars, Young blithely announced that in his opinion the Cubans were a "stabilizing influence" over there. They do say that both Vance and Carter are livid.

Other representatives of pressure groups in transportation, consumer affairs, etc., have likewise created problems on top of problems for President Carter, when more or new ones were the last thing he needs. Recently there has been a big buildup in the farm and livestock circles to try to get Secy. Bergland to rein in Carol Tucker Foreman and her right hand man, Dr. Robert Angelotti, who have been raising Cain and tryin' to run roughshod over the people they are supposed to regulate. Bergland answered the critics by

giving both Foreman and Angelotti a ringing endorsement. This spoils more trouble for Carter, since the food industry has found Bergland and, presumably, Carter impervious to their pleas for relief.

The trouble may well come from Congress, and if Carter needs any more troubles, he sure don't need any in Congress. He has a bumper crop of problems with Congress already. What happened is that the Kentucky Meat Processors Assn., weary of being kept hauled by the Burrocrats in USDA's Food Safety & Quality Service have taken their problems to the Kentucky Congressional delegation and seek to get Foreman and Angelotti fired. For starters they complained "Angelotti and Foreman are detrimental and have no experience in the industry except shooting at it." They continued with the charge "we can't see Angelotti doing any worse, he listens to absolutely no reason." It was charged that "USDA people are intimidated from top to bottom by Foreman" and carry out harebrained orders for fear of losing jobs. You recall Foreman's idea that ground beef and hamburger must contain only choice & prime beef and the idiotic at-

tack on mechanically deboned meat among others which revealed how little she understood meat and meat processing.

While most businessmen, farmers & ranchers included, are loath to get involved in politics in order to get relief from Govmint Burrocrats & Rogu-lators, it appears this is the only thing they can do. They also are findin' out that haulin' these goodwilt Burrocrats & Rogu-lators into Court is another form of seekin' some relief and have had success along that line. So the new politics seems to be more politics and hereon lies more trouble for poor ol' Jimmy.

Granma used to say "The road to Hell is paved with good intentions," and Carter must be aware of that by now.

Ever Thine,  
The Editor.

P. S.: Uncle Dunk reports the suggestion that the furish lousewort, a weed of which there are 512 known species, which is an endangered species, halted construction of the Dickey-Lincoln Dam in Maine, should be transplanted to Washington, D. C., seems like a good idea. They could put it in planter boxes alongside the fish tanks of Snail Darters and the rest of the country could get back to business while we still have some to get back to. Dunk reports the Center for Science in the Public Interest, another pressure group, wants FDA to regulate sodium chloride (plain table salt, mind you) as a possible hazardous drug. This falls along with the proposals that we all get to quit breathin' air and drinkin' water, since they might be hazardous to our health. Dunk figures if some feathery team could dig up a runnin' back as shifty as Jimmy Carter, they would really have it made. Notice this week Carter says our balance of payments are in trouble over imports other than oil? Ho, boy! - Thassall, Bro ther!

Congressman felt the Consumer Federation was something less than an unbiased group and this followed recent complaints that USDA had been financing the appearance of "friendly" witnesses to hearings on proposed new USDA rules and regulations. The new Agricultural Appropriations bill now prohibits this kind of activity by USDA.

Of possibly even more importance was the action of Chairman W. R. Poage of Texas in appointing a three-man committee to investigate the visit of Angelotti to two Colorado and three California packing plants. The tour was arranged by Herb Silverstein, who is connected with Quad Corp., a consulting firm, and reportedly a long-time friend of Angelotti. Angelotti defended this action by saying he wanted to visit the plants "without fanfare" and without being identified as to his job. Critics felt the affair opened the way for Silverstein to acquire clients, since such a tour with the head of

had an insider connection with the USDA which might make him useful to packers or meat processors in regulatory matters.

Revelation of the packing house tour led one member of the committee to crack "we had Watergate, then Korea, gate and now Agri-gate."

The "Turkey Ham" controversy was studied, a matter in which pork producers complain that consumers are misled into thinking the turkey product is genuine pork ham. All PSQS decided to do was make the turkey ham processors include on the label that the product was "turkey thigh meat". One committee member expressed amazement that this was all USDA could do, to which Mrs. Foreman suggested he might like to sit in with the poultry committee.

In the hearing the Congressmen drew from Foreman and Angelotti the admission that the PSQS bacon-nitrite regulations published in final form on May 16 was promulgated in violation of USDA rules because legal clearance of the final regulation had not been ob-

## The Circle Seven Commercial Brangus Bull.

Why do you think so many cowmen have been buying him? Like all other types of businessmen, it is necessary that a cowman make daily decisions affecting his operation. He must project his needs for the future and select the methods of management that will keep him in the black. A good cowman plans and chooses carefully. He knows the importance of getting a return on every investment he makes. He can't take chances; not on the nutrition of his cattle, and not on his bulls.

Circle Seven takes out the guess work involved with buying commercial bulls. Each and every bull produced

by Circle Seven is performance tested. The data is assembled for the buyer and each bull that leaves the ranch is guaranteed to be a sound breeder.

More and more cattlemen are switching to Circle Seven bred Brangus bulls. The fact is, last year more than 420 head went into commercial herds in 5 states. These cattlemen not only like the quality, they like the price.

Quality in Quantity at Competitive Prices.

Circle Seven takes out the guess work involved with buying commercial bulls. Each and every bull produced by Circle Seven is performance tested. The data is assembled for the buyer and each bull that leaves the ranch is guaranteed to be a sound breeder.

**BRANGUS  
The Ideal  
Mother.**

There's just one reason you need Brangus cows working for you—PROFIT! Brangus is America's number one brood cow, because she consistently produces calves that are in great demand by stockers, feeders, packers, and consumers. And this means consistent profit for you!

Brangus females mature early, calving as 2-year-olds with no problems, and they give a 20% to 40% longer productive life. They are excellent milk producers, and their calves gain faster, wean heavier, and do better than calves of other breeds. With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems.

Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS!

For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713) 885-3364.

With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems.

Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS!

Traveling has been the name of the game for us this past three weeks or so — throughout Oklahoma, getting ready for their Association sale September 9th to Missouri for the Heart of America Heifer Show; through Arkansas, into the great Brangus bull, General (CMS), sire of champions, herd sire prospects and ideal Brangus females totaling 70 lots of herd prospects, young pairs and bred heifers. This sale will have cattle from Choya Ranches and Brink's Brangus. Guest consignor, Cross N Ranch will sell its interest in General including its semen inventory.

The cattle sale will be managed by P&F Cattle Co., P. O. Box 807, Belville, Texas 77418, phone 713/865-3616.

For catalogs or information on the cattle contact Choya Ranches, Glen Urban, Manager, P. O. Box 304, Camp Wood, Texas 78833, phone 512/597-5828; or Brink's Breeding Corp., Box 1347, Kerrville, Texas 78028, Glenn Brinkman, general manager, phone 512/257-4283, on either sale.

Kentucky, back to Oklahoma, to Missouri and now almost, but not quite, back home.

Some random thoughts as we passed through Oklahoma — the northern beautiful ranch country I think I've ever seen — the status that I have only seen photos of in the past, "The Pioneer Woman", is so large and so magnificent and inspiring and makes me wonder how I would have performed back in those days. I saw my first real live Orleto (or go, they're beautiful) — I saw my first caravan of comelines (21 of them in less than 18 miles) heading north to wheat fields. Armadillos are also heading north, I guess, as we spotted one at Vinita in the north-eastern corner of the state — I think it's rather a shame that Route 66, the first highway to span from the East to West Coast, the inspiration of songs, etc., is no longer continuous. It stops, changes to another number, then starts up again. And I wish I knew the story behind some of the names of creeks. We crossed Hogshooter Creek and Cow Skin Creek, to name just a couple, and then came to Ford Creek. I had wondered numerous times and finally found out that the word Oklahoma is two Indian words put together and means "red earth". And later found out that the State of Missouri was named, "naturally", for the river by the same name and means the "land of many canoes".

A couple of other random thoughts — for the ones of you who had had the pleasure of meeting Jack Cross but have not met Mrs. Cross — she does not weigh in excess of 300 lbs. In fact, she probably just barely weighs 100. Matt actually believed Jack all this time as to most people, and when he met her he did have a rather puzzled look on his face for a few seconds and then blurted out "You're not fat at all!"

An additional note here, which you other "cow-folks" who are readers of this meandering epistle each month might find amusing — and which might be considered as one more insight into our very different way of life for which I speak pretty often — and especially of our very different vocabulary from the rest of the world. We recently married the Indian Nations Female Sale — nothing very startling about that, now is there? But the establishment that printed this catalog for us had a couple of them lying on their counter — they called us especially to relay the incident of a local minister entering their shop, standing with a stunned expression on his face and exclaiming with "You mean this world is now flagrantly selling women! And you are doing business for such people?" We all had our good, hearty laugh for the day — but in retrospect I guess it shouldn't seem that he was naive or misunderstanding, but

rather that we take such things for granted — and, you see, there was no picture on the cover of a cow or calf — only of a magnificent looking Indian brave astride a paint pony. So how would the minister or anyone else from any other walk of life, except ranching, draw any other conclusion from such a bald pronouncement — Female Sale!

We also should take into consideration that we must at times offend the sensibilities of more genteel and refined folk — no, that isn't what I meant to convey at all as we, too, are refined and every now and then even genteel. Maybe it will suffice to say "non-ranching" folks. Anyway, we speak of things such as A. I., fertility, palpation, of a myriad of illnesses and diseases of cattle, as a matter of course, and a lot of it at the dinner table. And in public. There must be times when people overhear our conversations and go out and tell their friends "You'll never believe what I heard these people talking about!"

We happened upon a birthday card

recently (whoever wrote the verse could not possibly be just a mere, ordinary, verse-turner-outlet, but must definitely know a great deal about industry and again, about our way of life) — the verse ran "I started to send you a million dollars for your birthday" — turn the page — "but I knew you'd just keep right on ranching till it was all gone."

See you in Sulphur Springs Saturday at the Brangus Country Invitational Sale — the Junior Heifer Show — and all those good things.

# SANTA GERTRUDIS NEWS

## The Santa Circuit

By BUDDY SMITH

Well, when you go out and check on your cows and see the dust rising behind them as they trail up to you, there is no doubt as to what time of year it is. The only positive thing I see in the drouth we're facing is that all cattlemen have something to talk about when they get together.

One thing the drouth hasn't done is affect the price of quality Santa Gertrudis, as evidenced in all of the recent sales. One such sale was the Oklahoma Santa Gertrudis Association "Picture Perfect" Sale, held in Tulsa June 24th. Bulls averaged \$1,675.00 with females averaging \$1,807.00. The demand was strong. High selling individual was a Joe Frenaley consigned cow that sold to Grandez Ranches for \$3700. She was a "Magnum" bred cow with a bull calf sired by "Christmas" 65/8. High selling bull was Leo Smith's consignment that sold to Copley Farms for \$2150.00.

Following the sale, I took the family by Bob and Sharon Wasson's place at Poteau, Okla. We looked at the "Christmas" bred calves they are getting, and I guarantee that Wasson Ranches is going to be tough to beat on the show road this coming season. Bob is breeding his Santa bulls to a top set of line bred Herford heifers. In a year or two, we should be seeing some Wasson Ranch "Santa-Cross" steers winning the steer shows.

Another top sale was just concluded, that being the Western Heritage sale, held at the Shamrock Hilton Hotel in downtown Houston. The cattle were sold in the ball room along with western art and quarter horses. I've never seen a more enthusiastic crowd. The demand for the cattle was unbelievable.

Cattle grossed \$186,000.00, with an average of \$8,118.00. The high selling animal was Connally Ranches' entry, bull 5/18, selling to Murdoch Ranches, of California, for \$28,000.00. 5/18 is a half brother to last year's high selling bull. His sire was Nine Bar Ranch 0385, a "Masterpiece" 511 bred bull. On the dam side he was straight Connally Ranch breeding. High selling female

was Cosgrove Ranches 195/6 to Cris Gunter from Franklin, Georgia, for \$20,000.00. The 195/6 is an own daughter of "Cosgrove 25/1". Cris is a new breeder from Georgia. He said you can look for 195/6 on the show road. If Cris is as successful as the Cosgroves were with 195/6, his name should be on the (CONT. ON PAGE 18)

## National Santa Gertrudis Junior Heifer Show

Kingsville — "Our Youth Are Our Future" — The Foundation of American Agriculture was the theme of this year's National Santa Gertrudis Heifer Show June 28-July 1 at the Heart of Texas Fairgrounds in Waco.

Santa Gertrudis Junior Breeders including 4-H and FFA youth from five states participated with 131 animals entered from Georgia, Mississippi, Arkansas, Oklahoma and Texas.

LaRue Douglas, Georgetown, presented a fitting, grooming and showing demonstration the first day before about 225 junior and senior entrants. A barbeque luncheon was followed by a talk by Reagan V. Brown, Texas commissioner of agriculture. That evening there was a western dance for all participants and their families.

June 30 saw a junior and senior livestock judging contest. Keith Huffman, McGregor FFA, was first in the junior contest. Dennis Taylor, Tomball FFA, second. Danny Matthews, Prosper FFA, Frisco, third. Mrs. Nora Goodman, Temple, was first in the senior (CONT. ON PAGE 12)

## Santa Gertrudis Show at Pan-Am Scheduled to Be One of Largest

One of the largest shows in the history of the Santa Gertrudis breed is expected to take place at the 28th Annual Pan-American Livestock Exposition at Dallas, October 9, when some 250 head of cattle compete in the open show for \$4,500 in premiums.

"It will be difficult to have a better show than the 1977 National, but we will give it our best," stated Don Clark, Director of the Livestock Department. The Junior Santa Gertrudis Heifer Show will be held on Thursday, October 19, with premiums of \$2,000 available to the winners. "Participation with premiums of \$500 each from the A. R. Fairbanks and Bert Dedmon creates the most premiums offered to Junior Santa Gertrudis exhibitors in any show in the world," Clark added.

Total cash premiums for Santa Gertrudis exhibitors at the 1978 Pan-American are \$6,500, plus trophies provided by the Premier Association.

The 15th Annual Premier Prestige Sale, Sunday, October 8, at 3:00 p.m., will be the climax of the Santa Gertrudis activities at the Pan American. Entries close September 1. Premium lists may be obtained by writing Don Clark, Director, Livestock Department, State Fair of Texas, P. O. Box 28010, Dallas, Texas 75228.

Another interesting feature of the sale was that the second high selling female was also a daughter of "Cosgrove 10", owned jointly with Bob White's Bar BW Ranch of DeRose, Tennessee. # NEWS about LIMOUSIN

## Around The Limo Loop

By KEN HOLLOWAY  
and BRUCE BROOKS

Gosh it's hot and dry here in the Great Southwest. Hope by the time you read this, we've all had a couple of inches of rain. But enough about the weather...

The fall sale season is quickly approaching and by all indications will prove to be as exciting as the spring sales just past. In spite of all the government efforts to take the profit out of the cow business, the market remains stable. In addition to the production sales on tap for the near future, the Limousin shows and sales will be our tool to exhibit the many qualities of our great breed. The Okla. Lim-Expo will be held again this year during the State Fair of Oklahoma, Sept. 27.

Again this year, the decision to sell show cattle will be your option. Of course the show we all wait for each year, the 5th Annual World Limousin Futurity will be held during the American Royal Livestock Show, Kansas City.

The Futurity once again is shaping up to be a memorable event. This year the "Avenue of Stars" has been added to the Limousin exhibit area which will allow us all to see the great herd sires that are so representative of our breed. As always, only the top 70 to 80 head will sell, so dig deep into your herds and bring the great ones. Immediately after the Futurity, the spotlight moves to Louisville, Ky. for the American Invitational Show and Sale held during the North American Livestock Exposition.

Also, Wiggins Ranch Co. will hold their fall Production Sale, Labor Day weekend, Sept. 2, and as always, another tremendous offering of fullblood and percentage females will be in store. Included in the offering will be 8 fullblood heifers and 10 open 3/4 blood females, many with calves at side. Plan to be at the Coyote Hills Ranch Division, Chattanooga, Okla. Friday, Sept. 1 for the pre-sale party and the sale. Sept. 2, for the always-exciting WRC Sale.

The following weekend, Sept. 9, is

the date chosen for the Bates Ranch Country Sale. Of course Bates Ranch has always been a producer of great Limousin cattle and will be offering you the chance to purchase these great females from one of the stalwarts in the industry. These cattle are all foundation cattle — proven, producing females. Another great Limousin event you won't want to miss!

As you can see the early fall season is rapidly taking shape to what could be one of the most exciting ever. We're sure you will want to be a part of the many shows, sales, and conventions that make our breed exciting, not to mention the many outstanding cattle that will be offered for sale and exhibited.

So until next month... Pray for Rain... but until it does, we're going water sking!

### NALF Sets Multiple Sire Program

The tremendous demand for percentage registered Limousin cows for commercial herds has prompted the national Board of Directors for the North American Limousin Foundation to authorize a multiple sire program to produce 3/8 and 7/16 females. "With such a great demand this year for 1/2 blood Limousin cows we feel there is definitely a need for more females in the 3/8 to 1/2 blood category," said Carlton Noyes, the national president.

The program states that as long as the bulls are 75%-87% Limousin, are recorded with the NALF and are half brothers by the same sire, the heifer calves out of foundation cows can be recorded as either 3/8 or 7/16 Limousin. "Many of these heifers will go into commercial herds, with the very best ones used in upbreeding to higher percentage Limousin," stated Greg Martin.

For further information contact the sale management, American Cattle Services, Inc., Route 2, Chattanooga, Okla. 73628, 405/355-8006.

### Limousin Evaluation Study is Released

The Oklahoma State University Department of Animal Science and the Oklahoma Ag Experiment Station released the first comprehensive study in this country evaluating one of the new beef cattle breeds. "An Evaluation of Limousin Cattle" by Dr. R. R. Frahm and D. R. Belcher was published as Bulletin B-738.

The project was sponsored by NALF and the Oklahoma Ag Experiment Station. Copies of Bulletin B-738 are available from OSU or the NALF office, 100 Livestock Exchange Building, Denver, Colorado 80216.

The Executive Vice President for NALF, Martin continued, "There is really very little difference between 3/8 and 1/2 blood females. Both are very productive and excellent brood cows. This program will provide the user with a greater supply of registered percentage Limousin females and will allow some of the commercial men with large pastures a chance to get in the registered Limousin business through the use of multiple sires." **AVOID CHANGING WHEEL LEATHERS FOR MANY YEARS**  
 Perma-cups are molded urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wearing, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups. Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been re-leathered in 9 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 28th year serving ranchers.
